Merkator · eaglebe® smart city platform

Merkator

WE HAVE SOMETHING WITH CITIES...

Merkator is an international company that focuses on safer streets and better underground networks for telecom and utilities companies in Belgium, The Netherlands and Spain.
Merkator has 80+ colleagues in 3 countries. Will you be next?

LET'S TALK ABOUT TECH

- You have a solid understanding of C#, Entity Framework and SOLID design principles
- You have experience building and consuming RESTful API's in ASP.NET or ASP.NET Core
- You know the ins and outs of Angular 2+ and have a feeling for User Interfaces
- Commands like push, pull, commit, rebase and cherry pick should obviously ring a bell
- Experience with PWA's and Mobile First development are a great extra
- Deploying and monitoring your App on Azure will be a useful asset

WHAT'S IN IT FOR YOU

- A competitive salary
- A nice company car
- A high end smartphone with data plan
- A windows laptop
- A flexible work schedule
- Great benefits like meal vouchers, hospitalization insurance and group insurance

LOCATION OF THE JOB

- Headquarter: Zellik.
- Work from Home: full time since March
- Work in the Office: as soon as it is safe, you are also expected in the office, but not full-time
